PULVERIZED SOLUTIONS

Pulver is one of the pioneer powder coating manufacturer in Europe. The production of Pulver makes up almost 30% of the total powder coating production in Turkey, and 50% of the production is exported to 40 countries. Having the highest export volume of coating in Turkey, Pulver has been the leading coating manufacturer for many decades. An important component of our philosophy is the high satisfaction provided to the customers by the products supplied. **ISO 9001 certification** obtained in 1995; **Qualicoat labeling**, European requirement for outdoor construction coatings obtained for 8 of our major outdoor application products in 1994; the license to manufacture anti-bacterial coatings material obtained in 1999 and **WRAS certification** (Water Regulations Advisory Scheme) coatings for contact to water are a few of the milestones we righteously take the pride of.

THE TPE SPECIALIST

Elastron is fully dedicated to development, production, marketing and sales of thermoplastic elastomers since 1988. A core value of Elastron is superior customer service and significant resources are devoted to ensure maximum customer satisfaction. Elastron has obtained all the key quality management systems. **The Quality Management System (ISO 9001:2000)** ensures that Elastron supplies all products with consistent quality that meet customer requirements. Elastron was also accredited by the **Automotive Quality System (ISO/TS 16949)** ensuring high quality and supply to the automotive market. The latest achievement was the certification of Elastron according to **ISO 14001:2004 Environmental Management System**, which demonstrates our strong commitment to the environment. Today Elastron is serving over 50 countries with high quality products that meet customer needs.

ULTIMATE PROTECTION

Pulron is the first manufacturer of thermoplastic powder coating in Turkey. We began operation in 2013 as a perfect combination of compounding technology of Elastron and coating technology of Pulver.

Pulron became a popular brand in a short time as a result of professional and high quality service that is being provided. As a result we increased our capacity and product diversity very quickly. With its infrastructure and expert staff developing more and more each day, it aims to be the first that comes to mind among all sector representatives not only in Turkey but also in Europe, Asia and America in a short time.

Applications

- Metal Fences
- Domestic Appliances
- Battery Boxes
- Hand Rails
- Wireworks Applications
- Construction Projects
- Marine Environments
- Cable Trays
- Automotive Parts
- Street Furniture
- Water Pipes & Tanks
- Stadium Seating
- Petroleum & Gas Pipelines
- Fire Extinguishers

THERMOPLASTIC COATINGS

Pulron is a thermoplastic coating powder which has been specifically designed to provide a long lasting durability for exterior and general applications. It is based on modified polyolefins and polyamides which can be applied over mild steel, aluminium or galvanized steel by **Electrostatic Spray, Fluidized Bed, Flame Spray** or **Flock Spray** systems.

Pulron has wide range of color options for different series of products. Our professional color matching service is also available for customized enquiries.

- **WRAS certified coatings**
- **ATEX compliant coatings**
- **Antibacterial coatings**
- **[C5-M corrosive category] compliant coatings**
- **Reach and ROHS compliance**

Specifications

- Excellent environmental credentials - no VOCs, no TGIC, no plasticisers, no isocyanates, no halogens & no heavy metals
- **Fully UV resistant:** Attractive, color-stable finish that lasts for decades
- **Designed for marine applications:** Corrosion resistant to long term salt, sea, sand and sun exposure
- **Hygienic:** Slow rate of growth of mildew and fungus compared with other coatings
- **Flexible:** Maintains flexibility even at -60°C
- **Strong finish:** Impact and graffiti resistant
- **Easy to use:** No requirements for a primer
- Ideal solution for sharp edges and welded parts
- High peeling and cracking resistance
- Very good electrical insulation
- Low smoke
- Resistant to acids
- Repairable
